* An admission fee of 802,000KRW will be charged to all freshmen.

* Tuition fee for Global Nursing(Korean-Chinese Bilingual Program) will be announced separately.

Eligibility for Application

1) General Eligibility : Applicant must satisfy one of the following conditions.

- Applicant and his/her parent must have a foreign citizenship.
- Applicant must have completed both primary and secondary educations, which is comparable to 16 years education at elementary, middle and high school, and college in Korea.

2) Eligibility for each Degree Program

Program	Eligibility
Master	• Applicant must have received or should receive a bachelor's degree before the deadline set by Inje University • Applicant must demonstrate a proficiency in Korean or English
Ph.D.	• Applicant must have received or should receive a bachelor's degree and a master's degree before the deadline set by Inje University • Applicant must demonstrate a proficiency in Korean or English
Combined Master & Ph.D.	• Same with Master's Degree

3) Qualification for Language Proficiency: Applicants must meet one of the language proficiency criteria below

A) Criteria for Korean Proficiency

- TOPIK Level 3 or above, KIIP(Korea Immigration & Integration Program) Level 3 or above, King Sejong Institute's Intermediate Korean Level 1 or above(Off-line class), INJE Global Language institute's Korean Level 4 or above

B) Criteria for English Proficiency

- TOEFL iBT 71 or above, IELTS 5.5 or above, CEFR B2 or above, NEW TEPS 326 or above

Applicants with nationality from countries where English is their native language or official language can meet the English proficiency with proof(graduation certificate) of completion of higher education in English. However, the above language proficiency can be relaxed for GKS(Global Korea Scholarship) Students, Foreign Government Scholarship Students, and students admitted as special cases after deliberation by Graduate School's Admission Committee.

Scholarships

Types of Scholarships		Qualification
Full-time Scholarship	85% of tuition waiver	Full-time student's duty + Publication of paper in an academic journal (For details, Refer to the obligations by major fields in admission guide)
	50% of tuition waiver	Full-time student's duty
Part-time Scholarship	30% of tuition waiver	Part-time students who do not receive any other scholarship
	20% of tuition waiver	International graduate students admitted to the Department of Music

* All information provided in this brochure, including departments, tuition fees, scholarships, and related matters, is based on the 2026 academic year. Please note that the information is subject to change without prior notice due to internal circumstances.

GKS Program

Course Introduction

- The Global Korea Scholarship (GKS) program is designed for international students who wish to pursue undergraduate or graduate studies in Korea, thereby enhancing international education exchange and deepening mutual friendship between Korea and participating countries.
- Inje University operates the GKS program, offering the General Program (Undergraduate and Graduate), the UIC Program (Undergraduate), and the R&D Program (Graduate).

Program	Introduction
GKS General Program (Undergraduate & Graduate)	Inje University has been operating the GKS Program since 2011. In 2023, the university was selected as an Outstanding University for Managing GKS Scholars, recognizing its excellence in supporting and managing GKS students.
GKS UIC Program (Undergraduate)	Selected in 2025 for NIIED's 2026–2028 GKS Degree Program (UIC), this program offers an industry-oriented curriculum that combines academic study with practical experience to support students' future careers.
GKS R&D Program (Graduate)	Selected in 2025 for NIIED's 2026–2028 GKS Graduate Specialized Track (R&D), this program provides R&D-focused education and field experience to cultivate high-level researchers in strategic high-tech fields.

Applicable Departments

GKS UIC Program (Undergraduate)

Department	Introduction	Quota
Mechanical and Electrical Automotive Engineering	This department offers a curriculum that integrates core subjects in mechanical and electric vehicle engineering. The program includes modules such as Digital Design, Mechanical Safety Design, Electric Drive Motor, Thermal-Fluid System Design, Testing and Evaluation, and other essential modules.	15
AI Software	This department was selected in 2022 as the first SW-Centered University in Gyeongnam Province and received 8 billion KRW in government funding. The department has established an innovative, industry-collaborative educational environment and adopted a practical, hands-on curriculum. Its goal is to nurture creative and interdisciplinary software experts who will lead the Fourth Industrial Revolution.	
Food Nutrition and Food Engineering	This department addresses global challenges such as climate change, food shortages, and nutritional imbalances by providing education in food nutrition and food engineering. The program focuses on ensuring sustainable food supply, improving nutrition, and preventing disease.	
Medical Information Technology	This department offers three specialized tracks: Healthcare AI, IoT, and Science, which include medical information systems, medical big data, and healthcare AI. The program focuses on hands-on training in areas such as medical image processing and medical device software development to cultivate interdisciplinary professionals.	

Applicable Departments

GKS R&D Program (Graduate)

Department	Introduction	Quota
Nanoscience and Engineering (Semiconductor, Energy, Healthcare Tracks)	This department is a research-oriented graduate program specializing in nano-convergence materials and components, with a strong foundation in the materials, parts, and equipment industry. Equipped with advanced research facilities, the department provides practice-oriented graduate education aligned with regional strategic industries through the Gyeongnam-type RT Track.	28
Digital Anti-aging Healthcare	This department is a research-oriented graduate program established through major government-funded projects to foster professionals in the anti-aging industry. Actively participating in national R&D programs such as BK21 and SW-Centered University projects, the department emphasizes industry-academia collaborative research, with a strong focus on AI+X convergence, to support regional strategic industries.	
Smart food & drug -Food & Life Science	This department offers an interdisciplinary, research-oriented graduate program integrating food science, nutrition, pharmaceutical engineering, and clinical sciences. Focusing on FoodTech, smart analytical technologies, and functional material development, the department provides practice-based education aligned with industrial, research, and public-sector R&D demands.	
Rehabilitation Science (Biohealth Convergence, Physical Therapy, Occupational Therapy)	This department is an interdisciplinary, research-oriented graduate program integrating biomedical science, rehabilitation science, AI, big data, and smart healthcare technologies. Emphasizing data-driven and predictive rehabilitation within digital healthcare and precision medicine, the program provides practice-oriented education through advanced research infrastructure and active participation in national R&D projects, serving as a leading biohealthcare research hub in southeastern Korea.	

Eligibility for Application

Criteria	Bachelor's	Master's	PhD
Scholarship Period	1 year of Korean Language Program + 4 years of Degree Program	1 year of Korean Language Program + 2 years of Degree Program	1 year of Korean Language Program + 3 years of Degree Program
Minimum Level of Education	High School Diploma or Associate Degree	Bachelor's Degree	Master's Degree

Scholarship Benefits

Scholarship	Benefits
Tuition	• Full Coverage
Airfare	• Round-trip economy class ticket (Actual expense)
Monthly Allowance	• 14,400,000 KRW per year for Bachelor's degree Students • 16,560,000 KRW per year for Master's and PhD degree Students

* All information provided in this brochure, including departments, tuition fees, scholarships, and related matters, is based on the 2026 academic year. Please note that the information is subject to change without prior notice due to internal circumstances.

Welcome to Gimhae

Welcome to Inje University

Gimhae, which connects Busan and Gyeongnam, is the central city of Gyeongnam with well-developed transportation infrastructure, including airplanes, KTX (high-speed train), subways, and buses. Furthermore, it is a favorable location for foreigners to reside* and study with a lower cost of living compared to Seoul and Busan and various policy supports for foreigners including an education special zone. The Inje University Office of International Affairs helps you adapt to life in Korea and supports your academic journey.

* Largest scale of foreign residence in Gyeongnam and 9th nationwide in terms of foreign residents (31,451 registered foreigners in Gimhae as of July 2025 / Ministry of Justice)
